ABOUT ME

Accomplished UI/UX Designer with 5 years of experience, including 3 years dedicated to creating intuitive digital products. I specialize in user-centered design, transforming complex processes into simple, engaging experiences. Skilled in Figma, Illustrator, and Canva, I've delivered 10+ successful projects across government platforms, marketplaces, ERP systems, and product/service-based websites. I'm passionate about crafting seamless user journeys, clean interfaces, and brand visuals that truly connect with users.

EXPERIENCE

 **Infront Technology| FLT** | Ui & Graphics Designer Sep 2025 - Present

- Designed the **UX for the company website**—developing layout structure, course pages, and interaction flow- which improved **user engagement by 30%** and reduced navigation time by 20%.
- Created high-impact marketing materials such as brochures, course catalogs, and student certificates, strengthening brand identity and improving communication of course offerings.

 **Parevartan E-verse Private Limited** | UI/UX & Graphics Designer Jan 2023 - Aug 2025

- Designed and delivered 3 large-scale government ed-tech projects: **Digital Library, Public Library, and SMS system**, enhancing digitized access to educational resources for 10,000+ users, reducing manual dependency by 60%.
- Contributed to the **UI/UX design of a Waste Management Marketplace (Web Portal & Mobile App)**, Improved user onboarding experience and drove a 30% increase in platform adoption rate.
- Developed **UI/UX for product and service based websites** with clean interface, responsive layouts.
- Managed full **ERP implementation** for a UPS manufacturing client — coordinated requirements, training and rollout achieved 100% adoption and reduced manual processing time 40%.
- Collaborated with clients and developers** for smooth UI implementation, handling requirement gathering, process understanding, manual testing, and issue identification to ensure quality delivery.
- Created and **managed social media** content, **campaigns**, and **videos**, boosting brand presence and engagement.

 **SFC Solution India** | MIS Executive Apr 2021 - Dec 2022

- Managed MIS for IT assets, vendor coordination and procurement tracking to keep records accurate and timely.
- Optimized ALM/lifecycle processes to improve asset visibility and operational efficiency.
